

Noé Director

Noé (from Paris) was born 1978 and he is living in Paris.

As his family is working in the production field (his mother is costumer designer, his father owns a production company, his sister is editor), Noe naturally starts working in this industry 10 years ago (as first AD, mostly on commercials working for production compagnies like Première Heure, LaPac, Irene, Partizan, Radical Media etc.). Noé has since directed several commercials for the web (Strategies web films awarded 2009) and music videos.

Following his inspiration and passion for visuals, cinematography, emotion and aesthetic images, he keeps doing shorts films: portraits of women, from 2 or 3 min, shot in 35 mm. Very simple but strong ones: a little story or just a feeling, as you can see in his reel.
