

SONDER
Director

SONDER is a Berlin-based directing duo formed by Sascha and Vladimir in 2017. They cultivated a diverse indie-film aesthetic, which highly relies on its authentic characters.

With individual ideas but a unified goal, they distil their work from what surrounds them and find unique stories in what seems like the everyday.

Finally they spice it with a pinch of genre, a slice of humour, a tight bond with their protagonists and a great sense for adventure that makes loosely scripted scenarios feel like a larger than life cinematic experience.

Together they direct and operate the camera for commercials and branded content, work with actors and non-professionals, and love to sing along to Disney soundtracks.
