Bernhard Russow

Bernhard Russow studied communication design in Berlin. Curious about aesthetics and technique, he needed himself into drones and gimbal work and was a pioneer on this field for some time. till today, he is the expert when it comes to flying cameras. But Bernhard never got lost on a technical side: He loves to create and is always looking for and developing new ideas. He loves to collaborate with directors from the beginning, and is happy to find the unique looks each and every project needs.
